Washing your hands properly with water and a soap-free cleanser is one of the best ways to help avoid the spread of germs. But we don't always have access to a cleanser and water. This is where hand sanitisers like Aqium come in handy.

Details

Washing your hands properly with water and a soap-free cleanser is one of the best ways to help avoid the spread of germs. But we don't always have access to a cleanser and water. This is where hand sanitisers like Aqium come in handy.
