QV Skin Lotion 1L is a lightweight fragrance-free body moisturiser from Ego Pharmaceuticals, designed for dry, sensitive and eczema-prone skin. The 1-litre pump bottle is the family-size for daily all-over moisturising - paediatrician-recommended for Australian households.

Details

What is QV Skin Lotion 1L?

QV Skin Lotion is a lightweight, fragrance-free body moisturiser from Ego Pharmaceuticals, Australia's leading sensitive-skin brand. The 1-litre pump bottle is the family-size for daily all-over moisturising of dry, sensitive and eczema-prone skin. Widely recommended by Australian paediatricians, dermatologists and child health nurses for households where multiple family members react to fragranced supermarket lotions.

QV Skin Lotion benefits

- Fragrance-free, dye-free, lanolin-free, paraben-free.
- Lightweight, fast-absorbing - non-greasy under clothing.
- Suitable for daily whole-body use.
- Safe for newborns, children, adults and the elderly.
- Soap-free, alcohol-free, SLS-free.
- 1-litre pump bottle - family-size, most economical QV format.
- Pharmacy-grade hypoallergenic formula.

Key ingredients

- **Glycerin** - humectant that draws water into the skin.
- **Light liquid paraffin** - softens and protects.
- **Petrolatum** - gentle moisture barrier.
- Water-based lotion carrier.
- NO fragrance, NO colour, NO lanolin, NO parabens, NO SLS.

How to use QV Skin Lotion

1. Apply to clean dry or slightly damp skin.
2. For best results: apply within 3 minutes of bathing or showering ("soak and seal").
3. Pump 2-4 doses for full body, more for very dry areas.
4. Massage gently in circular motions until fully absorbed.
5. Use 1-3 times daily depending on skin dryness.
6. For eczema flares, increase to 4-6 times daily; combine with prescribed topical steroid if your doctor has recommended one.

Who is QV Skin Lotion for?

- People with dry, sensitive or fragrance-allergic skin.
- Eczema, dermatitis and rosacea sufferers.
- Newborns, infants and children with dry baby skin.
- Pregnant and breastfeeding women avoiding fragranced personal care.
- Elderly with thin or fragile skin.
- Anyone preferring fragrance-free daily routine.
- Households where multiple family members share moisturiser.

QV Skin Lotion vs the rest of the QV range

- **QV Skin Lotion (1L)** — lighter, faster-absorbing, daily use. The product on this page.
- [QV Cream](#) — thicker, richer, longer-lasting hydration for very dry / eczema-prone skin.
- [QV Intensive Cleanser 1kg](#) — soap-free body wash to pair with the lotion.
- [QV Baby Moisturising Cream](#) — baby-specific format for newborn use.

Warnings and precautions

- For external use only.
- Avoid contact with eyes.
- Do not apply to broken or weeping skin without medical advice.
- If a rash or irritation develops, stop use.
- Use within 12 months of opening.

Frequently asked questions

What is the difference between QV Skin Lotion and QV Cream?

QV Skin Lotion is lighter and pumps from a 1L bottle - faster-absorbing, ideal for everyday all-over moisturising and warmer months. QV Cream is thicker and richer (250g/450g tubs) - longer-lasting hydration for very dry or eczema-prone skin. Many families use BOTH: lotion daily, cream for problem patches and overnight.

Can I use QV Skin Lotion on a baby?

Yes - QV Skin Lotion is fragrance-free, dye-free and lanolin-free, making it safe for newborns and infants. It is widely recommended by Australian paediatricians and child health nurses for infant dry skin and mild baby eczema. For very dry or flaky baby skin, QV Baby Moisturising Cream is the slightly richer baby-specific formula.

How often should I apply QV Skin Lotion?

Apply 1-3 times daily depending on skin dryness. For best results apply within 3 minutes of bathing while skin is still slightly damp - this seals in bath water moisture. For eczema-prone skin, the Australasian Society of Clinical Immunology and Allergy (ASCIA) recommends the 'soak and seal' routine - bath then lotion.

Does QV Skin Lotion contain SLS or fragrance?

No - QV Skin Lotion is free from fragrance, dye, lanolin, parabens and harsh sulphates like SLS. The formula contains glycerin (humectant), petrolatum and light paraffin (occlusives) and mild non-soap surfactants. Specifically designed for sensitive skin reactive to mainstream supermarket body lotions.

How long does the 1L bottle last?

A single adult using QV Skin Lotion once daily on the body uses approximately 30-50ml per application - the 1L bottle lasts 4-8 weeks. For a family of 4 sharing, expect 3-4 weeks. The pump dispenser makes daily use convenient and the 1L size is more economical per ml than the smaller 250ml and 500ml bottles.
