Brayden PRO Manikin (Red Blood Circulation)

Details

Size: Adult **Pricing Unit:** unit/1 **Carton QTY:** 1 

The **Brayden Pro** provides healthcare professionals with **quantitative data-driven feedback**. The Brayden Pro sends live data to the [Brayden Pro App](#) via Bluetooth to provide real-time feedback of CPR performance this data can then be reviewed and analysed to improve the quality of CPR performance and provide a numeric, quantitative assessment. Up to 6 Brayden Pro's can be connected to 1 device allowing for simultaneous training and assessment. Records can be stored and easily exported via Email for easy analysis on your Spreadsheet program.
