Details

- HeartSine has the unique combined electrodes (pads) and battery in one cassette. This means that there is only one expiring component to worry about, and also after an event you can be sure that the device is completely refreshed ready for the next rescue.

Important

You must not rely on the information on this site as an alternative to medical advice from your medical physician or other qualified healthcare provider. Consult your healthcare provider immediately if you think that you may have a medical emergency or for the diagnosis and treatment of injuries. Always seek the advice of your physician or other qualified healthcare provider before starting any new treatment or with any questions that you may have regarding a medical condition or injury.
