Details

The SalivaScan Oral Fluid Drug Test is a sensitive screen for the detection of illicit drugs in saliva. A saturation indicator window turns red when sufficient saliva has been collected. This instant drug test has been especially optimised to detect parent THC compounds. Results are available in just a few minutes.

Tested:

- Amphetamines
- Benzodiazepines
- Cocaine
- Methamphetamines
- Opiates
- THC

Quantity: Pack of 25.
