Contents:

- 1 x [Home First Aid KIT](#)
- 1 x [Snake Bite First Aid KIT](#)
- 1 x [Emergency First Aid Handbook](#)

Our Outdoor Bundle is our newest KIT combo on the block! Perfect for travel to remote areas, this bundle contains our most comprehensive first aid KIT - the [Home First Aid KIT](#) plus our [Snake Bite KIT](#). Top it off with our [Emergency First Aid Handbook](#) and you've got yourself covered for most remote emergency situations across Australia.

Leading first aid design and layout

Designed in Australia by leading first aid experts, the colour-coded labelling system for all SURVIVAL First Aid KITS enables you to clearly identify first aid contents and explains the typical use for each item. This makes it quicker and easier to respond to any emergency situation.

The award-winning Emergency First Aid Handbook offers advice, guidance and support on how to effectively respond to emergency situations and the two [SMART Snake Bandages](#) contained in the Snake Bite KIT offer revolutionary design to help you effectively manage snake or Funnel-web spider bites.

Easy refill and restock

The numbered labelling system in the KITS tells you how many of each item you should have – alerting you to replacement requirements and making it clear when you need to refill and restock.

Quality first aid product

Coated in 600D Oxford polyester, Survival First Aid KITS are durable and water resistant. Made with strong zippers and with double stitched handles, the outer KITS can be wiped down with disinfectant liquid.

The new and improved design for the SURVIVAL Home First Aid KIT features the sophisticated MOLLE system for tailored attachment, new shoulder straps and redesigned zips that are sturdier than ever before, with an extra layer of material on the outside that protects both zips and the KIT's contents from the elements.

Constructed from a blend of woven cotton fabric with non-fraying edges, the SMART Snake Bandage is extremely durable and can be washed after use. It measures in at 2m by 10cm and weighs approximately 50grams.

Personalise your remote area first aid KIT

Utilise the personal space sections in your First Aid KITS to include specific items or additional first aid contents suitable for your individual wilderness or remote area adventure.

The new-look KITS are also now bigger than ever, with an increased depth and an extra full mesh panel, as well as two new, deep pockets for increased storage of personal first aid items.

Be prepared for any remote area emergency

Ideal for wilderness adventurers, remote area enthusiasts or just any folks who love getting out and about in the great outdoors, the Survival Outdoor Bundle provides remote area first aid resources to help keep you safe every step of the way.
