Leading first aid design and layout

Designed in Australia by leading first aid experts, the colour-coded labelling system for all SURVIVAL [First Aid KITs](#) enables you to clearly identify first aid contents and explains the typical use for each item. This makes it quicker and easier to respond to any emergency situation.

Easy refill and restock

The numbered labelling system in the KITS tells you how many of each item you should have – alerting you to replacement requirements and making it clear when you need to refill and [restock](#).

Quality first aid product

Coated in 600D Oxford polyester, the [First Aid KITS](#) are durable and water resistant. Made with strong zippers and with double stitched handles, the outer KITS can be wiped down with disinfectant liquid.

The new and improved design for the SURVIVAL Home First Aid KIT features the sophisticated MOLLE system for tailored attachment, new shoulder straps and redesigned zips that are sturdier than ever before, with an extra layer of material on the outside that protects both zips and the KIT's contents from the elements.

In addition to the extensive selection of first aid items, each KIT contains CPR instructions to support your first aid training in the case of an emergency.

Personalise first aid in your household

Utilise the personal space section in your [Home First Aid KIT](#) to include specific items or additional first aid contents suitable for your individual household.

The new-look KIT is also now bigger than ever, with an increased depth and an extra full mesh panel, as well as two new, deep pockets for increased storage of personal first aid items.

Be prepared for any emergency

At home or on-the-go, the Family First Aid Bundle helps protect you and your family in any emergency.
