Azclear Action Medicated Lotion 25g is an azelaic-acid based lotion for the treatment of mild acne, blackheads and oily skin. Gentle enough for sensitive skin and suitable for daily use, this Australian-made lotion targets acne-causing bacteria while reducing skin redness and inflammation.

Details

What is Azclear Action Medicated Lotion 25g?

Azclear Action Medicated Lotion 25g is an azelaic-acid based topical treatment for mild acne, blackheads and oily skin. Made in Australia by Ego Pharmaceuticals, the 25g tube delivers 4-6 weeks of daily face treatment. Unlike harsher benzoyl peroxide alternatives, the azelaic acid formula is gentle enough for sensitive and combination skin while still effectively reducing acne-causing bacteria.

 **Listed therapeutic good (AU)** **Australian made** — Ego Pharmaceuticals

What Azclear Action Lotion treats

- Mild facial acne and breakouts.
- Blackheads and clogged pores.
- Oily and combination skin.
- Post-inflammatory red marks from healed pimples.
- Mild rosacea (consult your doctor first).
- Combination of these conditions on sensitive skin.

Active ingredient

- **Azelaic Acid** - reduces acne-causing bacteria, unclogs pores, and decreases skin redness and post-inflammatory pigmentation.
- Lightweight lotion base suitable for daily use under makeup.
- Free from parabens.

How to use Azclear Action Lotion

1. Wash face with a gentle cleanser (e.g. Azclear Action Foaming Wash or QV Intensive Cleanser).
2. Pat dry with a clean towel.
3. Apply a small amount of Azclear Action Lotion to affected areas.
4. Spread evenly with fingertips and allow to absorb (1-2 minutes).
5. Apply moisturiser and sunscreen during the day.
6. Use once or twice daily.
7. Continue for 4-8 weeks to see full effect.

Building an acne-care routine

- **Morning:** cleanser □ Azclear Action Lotion □ SPF 30+ sunscreen.
- **Evening:** cleanser □ Azclear Action Lotion □ light moisturiser if skin feels dry.
- Avoid combining with strong retinoids, benzoyl peroxide or salicylic acid without medical advice.
- Daytime sunscreen is mandatory - azelaic acid increases sun sensitivity.

Warnings and precautions

- For external facial use only.
- Avoid contact with eyes; rinse with water if contact occurs.

- Mild tingling on first application is normal; persistent stinging indicates over-use.
- Apply SPF 30+ sunscreen daily during treatment.
- If severe irritation develops, stop use and consult a pharmacist or dermatologist.
- Use sparingly during pregnancy and only on medical advice.

Frequently asked questions

What does Azclear Action Medicated Lotion do?

Azclear Action Lotion contains azelaic acid - an active that reduces acne-causing bacteria, unclogs blocked pores, and reduces redness and pigmentation. The 25g tube provides 4-6 weeks of daily use on the face. Unlike harsh benzoyl peroxide alternatives, azelaic acid is gentle enough for sensitive and combination skin.

How should I apply Azclear Action Lotion?

Wash and pat the face dry. Apply a small amount of Azclear Action Lotion to the affected areas (forehead, chin, cheeks, jawline) once or twice daily. Allow to absorb fully before applying sunscreen or makeup. Initial use may cause mild tingling that subsides within a week. Use consistently for 4-8 weeks to see full effect.

Is Azclear Action different from the foaming wash?

Yes. The Azclear Action Lotion is a leave-on treatment containing azelaic acid that stays on the skin to fight acne. The Azclear Action Foaming Wash is a rinse-off cleanser that prepares the skin for treatment. Many users combine both - foaming wash twice daily, lotion as the leave-on treatment after washing.

Can I use Azclear Action Lotion with other acne treatments?

Azclear is gentle but check with your pharmacist or dermatologist if you are also using benzoyl peroxide, retinoids, salicylic acid or prescription acne medications. Combining strong actives can

cause excessive dryness and irritation. Daytime sunscreen is essential when using any acne treatment as actives increase sun sensitivity.

Build your acne-care routine

Pair Azclear Action with these MediBC-stocked complements for a complete cleanse-treat-moisturise routine.

Azclear Action Foaming Wash 150ml
