Details

- Unistik 2 Normal Blood Sampling single use 21G, 2.4mm lancets are used to test blood safely, simply and successfully on normal skin types and for standard tests such as blood glucose and cholesterol.

It has a single-use mechanism to avoid needlestick injuries and prevent cross-infection, and a side firing action to provide extra comfort for both patient and professional.

Important

You must not rely on the information on this site as an alternative to medical advice from your medical physician or other qualified healthcare provider. Consult your healthcare provider immediately if you think that you may have a medical emergency or for the diagnosis and treatment of injuries. Always seek the advice of your physician or other qualified healthcare provider before starting any new treatment or with any questions that you may have regarding a medical condition or injury.
