DermAid 0.5% cream contains dissolved hydrocortisone. Dissolved hydrocortisone penetrates the skin quickly providing temporary relief from skin irritations caused by dermatitis, eczema and psoriasis.

Temporary relief for itching and rashes arising from eczema, dermatitis, cosmetics and jewellery.

### Details

DermAid 0.5% cream contains dissolved hydrocortisone. Dissolved hydrocortisone penetrates the skin quickly providing temporary relief from skin irritations caused by dermatitis, eczema and psoriasis.

Temporary relief for itching and rashes arising from eczema, dermatitis, cosmetics and jewellery.

### Benefits

- Occlusive cream base provides increased hydration.
- Contain moisturisers to help soothe dry, inflamed skin and help restore suppleness and hydration.

### Directions

Apply a small amount to affected skin 1-3 times daily. Cleanse with a soap alternative such as Pinetarsol as soap may irritate the skin.

DermAid cream comes in two strengths, talk to your pharmacist about the best one for your needs.

### Cautions

Do not use in the eyes.

Do not use on children under 2 years unless recommended by a doctor.

Do not use for acne.

Do not use under waterproof bandages or for more than 7 days unless recommended by a doctor.

**Always read the label. Use only as directed. If symptoms persist please see your healthcare professional.**
