Details

The Sam Splint Original is an extremely pliable multi-purpose splint and is built from a thin core of aluminium alloy, sandwiched between two layers of closed cell foam. Bent into various shapes and curves, it becomes extremely strong and supportive for any fractured or injured limb. The Sam Splint Original is also ideal for splinting IV's.

It is lightweight, radiolucent, reusable and very portable. Almost any bone in the body can be splinted with Sam Splint.

- Size: 9.5 x 4cm
