Details

Basic Emergency Life Support (2nd Edition) has been developed specifically for school students and young people, as a simplified version of the award-winning [First Aid Emergency Handbook](#).

Expert first aid guidance

Written and revised by one of Australia's leading experts in first aid practice and procedure, Ella Tyler, this essential first aid resource offers simplified, up-to-date first aid information for every emergency situation imaginable.

Clear and concise format

This 64-page student first aid booklet offers a practical, easy-to-follow layout including:

- Coloured tabs to assist easy access to relevant topics
- Alphabetical listing first aid topics
- Separate CPR section
- Supplementary topics to support understanding of important first aid concepts
- Instructions to help students master key first aid skills

Basic Emergency Life Support (2nd Edition) is a valuable teaching and learning tool.

Clever and compliant

Basic Emergency Life Support (2nd Edition) is compliant with HLTAID001 and HLTAID002.
