QV Naked Deodorant Roll-On 80g is a fragrance-free, hypoallergenic anti-perspirant designed for sensitive skin. The roll-on aluminium chlorohydrate formula controls underarm wetness and odour without fragrance, colour or harsh additives - gentle enough for eczema-prone skin and after-shaving use.

Details

What is QV Naked Deodorant 80g Roll-On?

QV Naked Deodorant Roll-On is part of Ego Pharmaceuticals' QV Naked range - a complete line of fragrance-free, dye-free, lanolin-free personal care products formulated for sensitive skin and people with eczema or dermatitis. The Naked deodorant uses an aluminium chlorohydrate roll-on base to reduce underarm wetness and odour, without any of the perfume or alcohol that typically irritate reactive skin.

QV Naked Deodorant benefits

- Fragrance-free, dye-free, lanolin-free formula.
- Anti-perspirant action controls underarm wetness.
- Gentle enough for eczema-prone and shaved skin.
- Roll-on applicator delivers a thin even film.
- Suitable for daily use.
- Soap-free, alcohol-free, paraben-free.

Active ingredient

- **Aluminium Chlorohydrate** - reduces sweat by temporarily blocking eccrine sweat glands and kills odour-causing bacteria.
- Water-based gentle carrier.
- No fragrance, colour, lanolin, alcohol or parabens.

How to use QV Naked Deodorant

Apply to clean, dry underarms in the morning or after showering. For best results, apply at night - aluminium chlorohydrate takes 6 to 8 hours to form a protective layer in sweat ducts, and overnight application gives maximum effect by morning. Allow 30 seconds to dry before dressing to avoid transfer to clothing.

Avoid applying immediately after shaving or on broken skin.

Who is QV Naked Deodorant suitable for?

- People with sensitive skin or fragrance allergies.
- Eczema, dermatitis and rosacea sufferers.
- Those who react to standard deodorant ingredients.
- Pregnant women avoiding fragranced personal care.
- Anyone preferring fragrance-free daily routine products.
- Teenagers with newly active sweat glands and sensitive skin.

Warnings and precautions

- For external use only.
- Do not apply to broken or freshly-shaved skin.
- Discontinue use if irritation occurs.
- Avoid contact with eyes.
- Store below 30 degrees Celsius.

Frequently asked questions

What does Naked mean in QV Naked Deodorant?

Naked means the formula is stripped of fragrance, colour, lanolin and parabens - leaving only ingredients essential for the deodorant's function. The QV Naked range is designed for sensitive-skin sufferers who react to perfumed personal care.

Is QV Naked Deodorant aluminium-free?

No - QV Naked Deodorant is an anti-perspirant that contains aluminium chlorohydrate, which gives it the sweat-blocking effect. The Naked in the name refers to fragrance-free, not aluminium-free.

Can I use QV Naked Deodorant after shaving?

Wait several hours after shaving before applying any anti-perspirant including QV Naked Deodorant, to avoid stinging on micro-cuts. Many users apply deodorant at night and shave in the morning.

Is QV Naked Deodorant safe in pregnancy?

QV Naked Deodorant is widely used during pregnancy because it is fragrance-free and free of typical sensitive-skin triggers. Talk to your doctor or midwife if you have specific concerns about aluminium-based anti-perspirants during pregnancy.
