Lanolin-free, perfume-free for sensitive skin

Details

Scientifically formulated with both Dimethicone and Glycerin, Silic 15 Cream acts as a hydrating protective barrier to help protect against moisture, sweat, soap and other irritants. Silic 15 helps protect the skin against chafing, irritation and maceration.

Benefits:

- Moisturising formulation, suitable for sensitive skin and for use with eczema and dermatitis
- Helps relieve and prevent dryness
- Non-greasy, non-sticky, quickly absorbed
- Dries clear
- pH Balanced, free from fragrance, colour & lanolin
- Helps maintain skin barrier function
- Use as often as required and before coming into contact with soaps and other irritants.

Directions:

Apply to affected skin as often as required.

Protection: Massage into skin before contact with irritants.

Infants: Apply at napkin changes to protect the skin against irritation and rashes

Patients in bed: Massage pressure areas 2 – 4 hourly to help moisturise and protect the skin.

Ingredients:

Aqua (water), Dimethicone, Cetyl Alcohol, Glyceryl Stearate SE, Paraffinum Liquidum, Glycerin, Methylparaben, Ethylparaben.
