Details

The Lifeline VIEW shows you what to do in an emergency in full colour, high definition video. With award-winning design, easy maintenance, an 8 year Warranty and Defibtech commitment to innovation, this AED has changed the face of on-site safety.

Video Tutorials

In an emergency, mistakes cost lives. How much more comfortable would you be if you could have a certified trainer with you to walk you through the steps of CPR, rescue breathing and external defibrillation. Now you can, every time. The Lifeline VIEW has a large, full-colour interactive display that means you'll never be alone when saving a life.

Showing how to save lives

Even trained professionals feel the stress of having the life of another in their hands and in such a situation can you be sure that you will remember every crucial detail. You can with the Lifeline VIEW. The VIEW's videos will show you exactly what to do every step of the way.

Personal Coach at your Side

CPR and first aid trainers teach a number of tricks for remembering the timing of chest compressions and how many to give, but recalling that can be difficult in a chaotic rescue. The Lifeline VIEW AED helps you out even there. It's built in metronome counts out the beats for you, freeing your mind up to focus more fully on the task at hand.

Is Your Device Rescue-Ready?

There is little in this world more valuable than peace of mind. The Lifeline VIEW AED has you covered there. You don't need to wait for a problem for it to give you feedback. With a single touch the status screen shows you everything you need to know to assure you that the machine is up to date and in full working order. You don't even need to turn it on.

Real-Time Protocol Selection

Not all rescue protocols are right for every situation and not every responder follows an identical regimen. Whether you do compression only CPR or include rescue breathing, the Lifeline VIEW's Real Time Protocol Selection lets you swap between protocols on the fly, giving you the comfort and confidence to deliver emergency care your way.

aed defibrillator durability

Ruggedness & Durability

With a durable plastic frame and rubberized edges, the Lifeline View is built to handle the most chaotic and demanding situations, coming out on top in some of the most rigorous environmental tests.

Award-Winning Ergonomic Design

At under one and a half kilos the Lifeline VIEW AED is compact, ergonomic and portable, the newest in a line of defibrillators that have won a number of industry awards for design and innovation.

Easy to Maintain

One of the major problems with most AEDS is maintenance. The Lifeline VIEW has been designed to even make that simple. The one touch status screen gives you all the relevant maintenance information at the push of a button, and the full colour video screen isn't just for saving lives. It's a supplement to the user manual that walks you through the maintenance process step by step. Proactive reporting monitors the status of the device and its components.

Simple to Upgrade

As protocols change over time, your unit can be upgraded in the field through a USB cable or a data card.

Record and Transfer Data

Data from the unit is recorded and easily retrieved from the device using a data card.

Safe and Effective Life-Saving Technology

The Lifeline VIEW AED uses biphasic technology, a clinically proven waveform and algorithm to deliver shocks and save lives. This is one of the most widely used impedance compensated waveforms which has extensive clinical experience and success in thousands of defibrillators around the world. Evaluation in hundreds of publications and proven success in the field has demonstrated this technology to be the safest and most effective when it comes to saving lives.

Corporate Focus and Commitment - the Defibtech Tradition of Excellence

With more than 160,000 units in the field globally, Defibtech is constantly moving forward, driving research and innovation to constantly make saving lives easier and more reliable. This commitment to producing the best AEDs medical technology can produce and has earned them accolades and respect in the industry.
