Details

- A highly effective formula that repairs damaged dry skin of the heel and foot
- The skin of the heel and foot is particularly prone to drying and subsequent cracking from a depletion of natural urea due to contact with the ground, mechanical abrasion and water contact
- This balm remains over the affected area, repairs the damage and rehydrates the skin

Ingredients:

- Urea (which restores the natural balance of the affected area and also has Keratolytic properties which hasten the breakdown and removal of dry scaly skin)
- Lanolin and petrolatum (which works with the natural lipid system of the skin to prevent future skin dryness and roughness)

Quantity: 120g
