Details

The Saver Scoop Stretcher is designed so emergency personnel can uncouple either or both ends of the stretcher and gently scoop up the patient using a scissor-type closing motion. This scoop stretcher is ideal for hip and spinal injuries. The stretcher supports a patient in the position found, reducing risk of further injury.

Key Features

- Twin aluminium safety locks for smooth and non-binding locking and unlocking
- Telescoping tubes allow length adjustments for various patient heights
- Narrow foot-end frame for handling in confined areas
- Open-centre design permits patient to be X-Rayed
- Folds compact for storage
- Can be used with Model 385-C Storage/Carrying Case
