### Details

The handiest and most adaptable first aid solution on the go, the SURVIVAL Pocket CPR KIT is a micro [first aid kit](#) with a massive impact.

### Leading first aid design

Designed by leading first aid experts to contain the exact first aid contents required should you need to perform CPR in an emergency situation, this little KIT can help you save a life.

In addition to its careful selection of essential items, this KIT contains CPR instructions to support your first aid training.

### Quality first aid product

With a durable outer bag, and a handpicked selection of essential first aid contents, this innovative pocket trauma solution is water resistant, user friendly and invaluable for every purse, pocket or belt in Australia.

### \*Additional first aid contents\*

Complete with a pair of nitrile gloves and a disposable face shield mask, this mini first aid favourite has been recently updated to include band aids, an extra skin cleaning wipe and a small personal space section.

## Be prepared for any emergency

Weighing in at under 50 grams (6.5cm x 11cm size) with a convenient belt buckle loop, this mini KIT is literally a take-anywhere first aid solution, to help you be prepared for any emergency.
