Details

The CPR Emergency Handbook (4th Edition) outlines the latest best practice techniques when learning or performing resuscitation.

Updated in line with the most recent CPR Guidelines issued by the [Australian Resuscitation Council](#), this essential first aid resource is the preferred choice for expert CPR trainers and instructors, and a critical resource for every home in Australia and around the globe.

Expert first aid guidance

Written and revised by one of Australia's leading experts in first aid practice and procedure, Ella Tyler, this essential first aid resource offers easy-to-understand, up-to-date CPR instructions that can help you save a life.

Clear and concise format

Featuring easy-to-follow tabbed sections: Adult, Child, Baby and Special Circumstances, the clear and concise format of the CPR Emergency Handbook (4th edition) makes it easy to identify and understand exactly what needs to be done in an emergency.

The step-by-step instructions are clear and simple to follow. Summary charts at the beginning of each section support and simplify learning for those attending a CPR training course.

Clever and compliant

The CPR Emergency Handbook (4th edition) is compliant with HLTAID001.
