QV Naked Anti-Perspirant Roll-On 80g is a fragrance-free, hypoallergenic anti-perspirant designed for sensitive skin. The roll-on aluminium chlorohydrate formula controls underarm wetness and odour without fragrance, alcohol or other irritants found in mainstream products.

Details

What is QV Naked Anti-Perspirant 80g?

QV Naked Anti-Perspirant Roll-On is part of Ego Pharmaceuticals' QV Naked range - fragrance-free, dye-free, lanolin-free personal care for sensitive skin and people with eczema, dermatitis or fragrance allergies. The 80g roll-on aluminium chlorohydrate formula controls underarm wetness and odour without any of the typical irritants in mainstream anti-perspirants.

QV Naked benefits

- Fragrance-free, dye-free, lanolin-free.
- Anti-perspirant action - reduces underarm wetness.
- Gentle enough for eczema-prone and shaved skin.
- Roll-on applicator delivers a thin even film.
- Alcohol-free, soap-free, paraben-free.
- Pharmacy-grade hypoallergenic formula.

Active ingredient

- **Aluminium Chlorohydrate** - reduces sweat by temporarily blocking eccrine sweat glands and kills odour-causing bacteria.
- Water-based gentle carrier.
- No fragrance, colour, lanolin, alcohol or parabens.

How to use QV Naked Anti-Perspirant

Apply to clean, dry underarms in the morning or after showering. For maximum effect, apply at night - aluminium chlorohydrate takes 6 to 8 hours to fully bind to sweat duct cells. Allow 30 seconds to dry before dressing to avoid transfer to clothing. Avoid applying directly after shaving or to broken skin.

Who is QV Naked Anti-Perspirant suitable for?

- People with sensitive skin or fragrance allergies.
- Eczema, dermatitis and rosacea sufferers.
- Those who react to standard deodorant ingredients.
- Pregnant women avoiding fragranced personal care.
- Teenagers with newly active sweat glands and sensitive skin.

Warnings and precautions

- For external use only.
- Do not apply to broken or freshly-shaved skin.
- Discontinue use if irritation occurs.
- Avoid contact with eyes.

Frequently asked questions

What does Naked mean in QV Naked Anti-Perspirant?

Naked means the formula is stripped of fragrance, colour, lanolin, alcohol and parabens - leaving only ingredients essential for the anti-perspirant's function. Designed for sensitive-skin sufferers who react to perfumed personal care.

Is QV Naked Anti-Perspirant aluminium-free?

No - QV Naked contains aluminium chlorohydrate which gives it the sweat-blocking effect. Naked refers to being fragrance-free, not aluminium-free.

Can I use QV Naked after shaving?

Wait at least 30 minutes after shaving before applying any anti-perspirant including QV Naked, to avoid stinging on micro-cuts. Many users apply at night and shave in the morning.

Is QV Naked Anti-Perspirant safe in pregnancy?

Yes. QV Naked is widely used during pregnancy because it is fragrance-free and free of typical sensitive-skin triggers. Talk to your doctor or midwife for specific concerns.
