Using SolvEasy Tinea Cream is a quick and easy way to treat athlete's foot. This effective formulation contains terbinafine hydrochloride which binds to the skin and continues to act for days after the last application, to help relieve itchiness while clearing the infection.

Details

Using SolvEasy Tinea Cream is a quick and easy way to treat athlete's foot. This effective formulation contains terbinafine hydrochloride which binds to the skin and continues to act for days after the last application, to help relieve itchiness while clearing the infection.

Benefits:

- Effective treatment for athlete's foot
- Suitable for adults and children over 12 years of age.
- Lanolin-free cream base soothes and moisturises.

Directions:

Clean and dry the affected areas thoroughly.

Apply SolvEasy Tinea Cream once daily, for 7 days, to the affected area and the surrounding skin.

If the infection is on the sole of your foot, use for 2 to 4 weeks.

Do not use soap as soap may further irritate your skin. Cleanse with a soap alternative.

Cautions:

Do not use soap as soap may further irritate your skin.

Ingredients:

Terbinafine Hydrochloride 1% w/w
