ECOTEST Rapid Antigen COVID-19 Self Test Pack/2 UPDATE 10:00AM 17/01/2022. Thankyou for your interest in RAT supply. Due to unprecedented demand on our stock and supply chain, we are currently unable to process further orders until we are able to fulfil some of our order backlog and have a clear indication of available incoming stock. We apologise for the inconvenience, and will be in touch with customers as soon as stock is available for supply. We anticipate this to be in mid-late February. [rapid\_test\_form]

### Details

The Ecotest Saliva Pen is an easy to use consumer self test for Covid-19. A simple two step process that provides results within 15 minutes. A simple to use test kit that is a great alternative to the nasal test kits. Great for government, businesses, schools and the elderly with its low cost. All-In-One test unit - no seperate components required - No Nasal Swab required! - Easy Saliva Sample - Retail Pack of 2 units lowering consumer cost -ARTG 372335 ECOTEST Rapid Antigen COVID-19 Self Test Pack/2 UPDATE 09:00AM 11/01/2022.
