Details

- Hospital Skin Care Lotion

Effective but gentle, this non-greasy penetrating lotion protects the hands and nails from chapping, dryness, and the effects of detergent alkalinity. Soothing Hospital Skin Care Lotion containing 1.5% Dimethicone has humectants to moisturise the skin and effective emollients to relieve dry skin. While softening skin, it provides a silicone barrier for lasting protection against the harsh conditions encountered by hospital staff every day. Available in a handy 500ml pack, it dispenses easily, fits neatly on sinks, in wall mounted holders and on ward shelving.

Quantity: 500ml
