### Details

Livingstone Foldable Cardboard Asthma Spacer, Disposable,

#### General Description:

Unique dual valve MDI holding chamber design delivers pop-up convenience and effective drug output at a fraction of the cost. This unique design allows to be reused by a patient over multiple doses - meets and often exceeds the performance of plastic holding chambers.

- Economical - Less expensive than traditional plastic spacers
- Portable and compact - Lightweight and foldable packaging to store in any bag, pocket or first aid kit
- Dual-valve holding chamber - Used for effective administration of aerosol medication when managing asthma
- Clear-view window - Monitors delivery of aerosol medication
- Pop-open-go assembly - Designed for convenience or immediate use in emergency attacks
- Individually packed - Avoids cross contamination
- Single patient use - Dispose when worn or damaged

**THE BEST FLAT PACK SPACER IN AUSTRALIA - Tested by The University of Western Australia**
