Note: Batteries and electrodes are NOT included. They must be purchased seperately.

Details

ZOLL AED Pro is designed to perform in any environment either in hospital or out in the field. The AED Pro provides the ruggedness, portability, and advanced functionality that professional rescuers and services require from an AED.

Unique to ZOLL AEDs is a real-time feedback mechanism, known as Real CPR Help, which allows rescuers to see and hear how well they are performing the rate and depth of chest compressions during CPR.

The AED Pro offers:

- Rugged construction and exceptional durability with resistance to dust and water jets (IP 55 rating)

- The only AED in the industry to withstand a 1.5-meter drop test
- Disposable or Rechargeable battery options
- Available as semi-automatic with manual override for ALS professionals
- Built-in 7-hour memory or USB memory technology
- ECG monitoring with 3-lead cable and high-quality display
- Real CPR Help with instant feedback on the rate and depth of chest compressions during CPR through ZOLL's unique one-piece CPR D-padz Electrode
- See-Thru CPR on the AED Pro allows advanced life support providers the ability to see the patient's underlying intrinsic rhythm without stopping CPR

Other important features:

- Intelligent pediatric capability with pedi-padz II Pediatric Electrodes
- Automatic self-testing to assure a constant state of readiness
- Unrivalled battery compatibility and options (long-life disposable or rechargeable) that meet your specific needs
