Details

The award-winning First Aid Emergency Handbook (5th Edition), provides a quick and accurate summary of first aid for a range of everyday emergencies. It is the must-have first aid handbook for every household and workplace in Australia.

Expert first aid guidance

Written and revised by one of Australia's leading experts in first aid practice and procedure, Ella Tyler, this essential first aid resource offers easy-to-understand, up-to-date first aid information for every emergency situation imaginable.

Clear and concise format

Winner of the coveted Australian Design Award, the Handbook offers a practical, easy-to-follow layout including:

- Alphabetical listing first aid topics
- Separate CPR section
- Skills and procedures section: infection control, bandaging techniques and more

First aid book of choice

The book of choice for first aid trainers and safety officers, clear and concise information and a tabbed format ensures all first aid information is easy to find and reference.

Additional resources to support first aid training including presentations and workbooks with exercises for trainers and students, are also available.

Clever and compliant

The First Aid Emergency Handbook (5th edition) is compliant with HLTAID001, HLTAID002 and HLTAID003.
