Genuine paediatric electrodes for the ZOLL AED Plus and AED Pro, for use on children under 8 years or under 25kg.

### Details

The ZOLL pedi-padz II are the genuine paediatric electrodes for the AED Plus and AED Pro. They deliver a paediatric-appropriate energy dose and are intended for children under roughly 8 years of age or 25kg. Like all ZOLL pads they are pre-connected and ready to apply.

**Best for:** schools, childcare, family venues and any AED Plus or AED Pro site that may treat a child.

Includes one set of pedi-padz II electrodes, 2-year shelf life. Compatible with ZOLL AED Plus and AED Pro (for AED 3, use the CPR Uni-padz).
