Details

Features:

- 3-facet needle designed for smooth skin penetration with no tearing injury.
- High speed needle propulsion completes lancing within just 3 milliseconds.
- One size fits all.
- Suitable for thick or thin skin, small or large blood volume requirements, adults and children.
- No fussy lancet selection or storage issues.
- Undamaged by shaking, vibrations or dropping from 1m height.
- Hygiene assured - designed for single use, no cross contamination.
- Each depth setting is 'clicked' into place and cannot slip out of position once selected.
- Needle tip lies deep inside casing - injury not possible with correct use.
- Automatic needle retraction after use eliminates risk of injury and cross contamination.
- Trigger button resistance - firm pressure required for activation.
