Details

- The structural interaction between the bones and muscles.

On the left side of the skeleton over 600 important medical and anatomical structures are shown, such as the muscle origins (red) and insertions (blue) as well as hand-numbered bones, fissures and foramina on the right side. It is natural size.

This is 3 part assembled skull. Individually inserted teeth. Limbs can be removed quickly and easily. On a stable metal stand with 5 casters (painted white). Close to the realistic weight of around 200 bones.

- Final assembly carried out by hand
- Made from a durable, unbreakable synthetic material
- Top quality natural casting
